

Hello there!

Read this before you start using
your machine!!!

Quick Start Guide

Please read before you make your first delicious coffee drink!

1. Clean the capsule holder in soapy water and rinse thoroughly
2. Fill the water tank with cold water
3. Remove the plastic film from the drip tray and insert it horizontally, adjust the drip tray to the height you prefer and place a cup on the tray
4. Once you switch the machine on, the power indicator ● will blink to indicate that heating is in progress. Wait until the light glows **solid green**, the machine is ready to use!
5. A rinsing tool has already been installed in the machine. Please leave it in the machine and push it down to clean the machine. When you come to make coffee, you'll need to remove it.
6. Push the lever to the right towards the ● this is the **HOT** water setting. Run half the tank of water through on this setting (90 seconds)
7. Switch the lever to the left towards the ● this is the **COLD** setting. Run the remaining half tank of water on this setting (90 seconds)
8. Return the lever to the middle position and now remove the rinsing tool, empty cup (*keep the rinsing tool in a safe place for future cleaning*)
9. Now you're ready to start using your NESCAFÉ® Dolce Gusto™ machine!

Hope you enjoy being your own barista! Cheers!
